

Disclaimer

After an attentive and thoughtful review by a duly constituted expert committee, this paper has been found to be a case of plagiarism at the expense of E. Ever, O. Gemikonakli, R. Chakka and T. V. Do. As such it has been removed from CIT's Web site. Researchers who have referenced it in their publications are kindly directed to consider the original publication as the rightful one, since significant parts of the respective text has been copied from there:

"A Mathematical Model for Performability Evaluation of Heterogeneous Multiprocessor Systems with Reconfiguration and Rebooting Delays", Proceedings of the European Simulation and Modeling Conference, 2005 (<http://eprints.mdx.ac.uk/1742/>)

For details on the case, as well as the committee's findings, please refer to CIT's issue Vol.22, No.1, where the respective report is published (<http://cit.srce.unizg.hr/index.php/CIT/article/view/2429>).
