Subject Index: CIT Vol. 18 (2010), Nº 1–4

Ad-hoc network, 19
Algorithm complexity, 45
Ant systems, 233
Assistive technology, 257
Attribute, 167
Automatic evaluation, 303
Automatic speech recognition, 309
Autoregressive modeling, 19

Biomimetic systems, 31
Biplane, 45
Blogs, 369

Call admission control, 1
Case studies, 133
Chaotic system, 221
Chunking, 287
Code smell, 333
Cognitive decline, 257
Collaborative editing, 191
Collaborative learning, 69, 207
Combinatorial design, 45
Complexity, 257
Conceptual graphs, 245
Congestion control, 233
Content analysis, 369
Contextualized information retrieval, 325
Corpus, 295
Correlation between evaluation measures, 303
Correlation coefficient, 53
Croatian language, 295
Croatian WordNet, 287
CSCL, 69, 207
Cultural differences, 121
Cultural heritage, 317
Culture, 125

Data mining, 341
Data warehouse, 175, 377
Derivation, 295
Dialog manager, 309
Dictionary, 295
Discrete cosine transform, 53
Dissemination, 93
Driver information system, 31
DSS, 201

Education, 93
Educational resources, 175
Empirical, 159
Evaluation, 101, 103
Evaluation of teaching, 121
Event recognition, 317
Evolution, 167
Exhaustive search, 45
Experiments, 361

Face recognition, 53

Filtering, 45
Flow control, 233
Fuzzy logic, 31, 221

Genetic algorithms, 221
GIS, 201
Good practice, 401
Grid, 69
Grid portal, 69
Grid service, 69

Human-computer interaction, 275, 369
Human error, 349
Hydro-information system, 201

ICT education, 175
Illumination normalization, 53
Image processing, 31
Image quality assessment, 183
Image segmentation, 221
Imprecise Computation Model, 393
Indicator, 207
Inflection, 295
Information systems, 93, 95, 201, 401
Information systems development, 95
Information technology, 93
Infrared imaging, 141, 151
Inheritance, 159
Intelligent control, 31
Interactive systems, 31
Intex, 287

JPEG, 183
JPEG2000, 183

Keystroke saving, 275
k-server problem, 361

Learning, 121, 133

Machine learning, 341
MANETs, 233
Manual evaluation, 303
Markov random field, 221
Matrix-Geometric method, 1
Meaning definition, 287
Medical imaging, 385
Method calls, 159
Mobile application, 101, 103
Mobility modeling, 19
Morphological grammar, 295
Multiagent systems, 221
Multi-touch screen, 385
Multi-word units, 295

Nearest neighbor classification, 53
NEON project, 191
NooJ, 295

NP chunk, 295
Number entry, 349

Offshore outsourcing, 109, 111
Older adults, 257
One-level scheduling, 393
On-line algorithms, 361
On-line problems, 361
Online-form complexity, 257
Ontology, 325
OO, 159, 167, 333
Orthogonal keyboard, 275
OWL-DL, 317

Peer observation, 133
Perceptual quality, 183
Performance improvement measure, 141, 151
Prediction, 341
Publishing, 401

QoS routing, 233
Quality, 401
Question answering, 325

Real-time system, 31, 393
Refactoring, 167, 333
Requirements collection and definition, 377
Risk, 109, 111
Road vehicle control, 31

Safety locks, 349
SDLC, 377
Semantic analysis, 309
Semantic web, 191, 317
Sensor node, 341
Signal facet, 245
Social network analysis, 191
Soft keyboard, 275
Spectral analysis approach, 1
Speech understanding, 309
Spoken dialog system, 309
Standoff detection, 141, 151
Statistical machine translation, 303
Structural similarity measure (SSIM), 183
Superresolution, 141, 151
Surgical planning, 385
Syntactic grammar, 295
Syntactic patterns, 287
Systems development, 109, 111

Teaching evaluations, 133
Teaching, 121, 133
Text analysis, 317
Text-to-speech, 309
Throwaway application, 103
Time series analysis, 19
Total weighted error, 393
Trace, 207
Trace analysis, 207
Trace visualization, 207
Transactional databases, 175
Transparent orthography, 275
Two-level scheduling, 393

Usability, 101, 103
User interface, 385
User interface design, 349

Variable selection, 183
Video indexing, 245
Video retrieval, 245
Visual content, 245
Visual semantics facet, 245

Web-based content, 369
Website design, 121, 125
Wiki, 191
Wireless networks, 1
WissKI, 317
Work function algorithm (WFA), 361
