

Subject Index: CIT Vol. 7 (1999), N° 1-4

- Adaptive genetic operators, 229
- Additively decomposed functions, 19
- Analytic Hierarchy Process, 267
- Automatic test generation, 333
- Autonomous vehicle driving, 277
- Binary tournament selection, 107
- Bounded retransmission protocol, 311
- Branching process, 107
- B-spline, 245
- Computation tree logic, 311
- Computed tomography (CT), 295
- Computer aided design, 61
- Computer-aided Interview, 181
- Computer-assisted language learning, 175
- Conformance testing, 333
- Courseware, 197
- Crab gait, 93
- Distance learning, 175, 197
- Distributed algorithm, 323
- Dynamic Environments, 49
- Electrical traction system, 115
- Electronic circuits, 61
- Email, 175
- Equidistant path, 123
- Evolution, 213
- Evolutionary algorithms, 1, 61, 77
- Expectation Maximization (EM) Algorithm, 153
- Experiment, 237
- Expert Systems, 181
- Factorized distribution, 19
- Feature extraction, 277
- Feature grouping, 277
- Finite Element Analysis, 137
- Fisher's Theorem, 19
- Formal verification, 311
- Framework, 213
- Genetic algorithm, 19, 107, 229
- Genetic algorithms, 33, 49
- Genetic-fuzzy system, 93
- Groupware, 197
- GSM, 333
- Hexapod, 93
- History, 213
- Image enhancement, 255
- Image processing, 255, 277
- Image Reconstruction, 153
- Information systems, 213
- Informing science, 213
- Integration, 295
- Intelligent tutoring systems, 165
- Island model, 33
- Japanese, 175
- Kinematic margin, 93
- Language technology, 221
- Linear separability, 33
- Linear ranking selection, 107
- Local and global optima, 229
- Machine-aided translation, 221
- Markov Random Field, 295
- Maximum flow problem, 237
- Maximum Likelihood Estimation, 153
- Mesh, 137
- Mixed Integer Linear Model, 267
- Mixed integer programming, 77
- Mobile robot, 123
- Model checking, 311
- Multicast communication, 323
- Multimedia, 165, 175, 181
- Network, 237
- Network-based education, 197
- Neural and evolutionary computing, 137
- Newton-Raphson method, 115
- Noise filtering, 255
- Non-linear filtering, 255
- Optimization, 1, 61, 295
- Parallel algorithm, 237
- Parallel algorithms, 33
- Path planning, 123
- PC Pentium, 153
- Performance, 33
- Philosophy The Problem with Information Systems, 213
- Positron Emission Tomography, 153
- Psychological Assessment, 181
- PVM, 237
- Replacement, 49
- Re-routing, 323
- Response to selection, 19
- SDL specification, 333
- Segmentation, 295
- Selection, 49
- Sparse Matrix, 153
- Static stability, 93
- Sustainable Development, 267
- Tele-education, 197
- Telecommunication software engineering, 333
- Three-phase load flow, 115
- Transportation problem, 1
- Traveling salesman problem, 1, 77
- Two-phase load modelling, 115
- Vehicle routing problem, 77
- Verilog, 311
- VIS, 311
- Volume reconstruction, 245
- Volume rendering, 245
- Widest pass, 123
